❖ **Project Name:** Abcam  
**Organization:** IBM India Pvt. Ltd.  
**Role:** SOA/OSB Developer

**Roles performed:**

- As a developer I have created APIs using XSDs, WSDL, Xquery Transformations, Proxy Service and Business Service as per requirement
- Developed integrations to ERP for purchase order, and financials (General ledger, Account Receivable, Account Payable) using SOACS
- Developed interfaces with error handlers in SOA SUITE 12C.
- Developed XSLTs to perform transformation between different systems.
- I have created JMS Queues, FTP ,AQ, DB Based services in SOA
- Prepared Technical Design Documents
- Performed Unit Testing and Integration Testing
- Providing SIT and UAT support
- Managing code versions using SVN.

**Description:** Abcam PLC is a biotechnology company that develops and provides antibodies to life science research and clinical communities. The company's products allow research into the role of signalling and regulatory molecules and proteins in biological pathways.

**Technology:** SOA 12c, SOA CS Used Protocol: Web (HTTP/HTTPS) , SOAP Services

❖ **Project Name:** ATCO  
**Organization:** IBM India Pvt. Ltd.  
**Role:** SOA/OSB Developer

**Roles performed:**

- Worked on upgrading SOA CS, MFT CS services
- Performed Unit Testing and Integration Testing
- Providing SIT and UAT support
- Managing code versions using SVN.

**Description:** ATCO's subsidiaries include electric utilities, natural gas production and distribution companies, and construction companies.

**Technology:** SOA 12c, MFT CS Used Protocol: Web (HTTP/HTTPS) , SOAP Services

❖ **Project Name:** Shop Direct  
**Organization:** IBM India Pvt. Ltd.  
**Role:** SOA/OSB Developer

**Roles performed:**

- Configured Data Sources, JMS queue Connection Pools by using WebLogic admin console.
- As a developer I have created APIs using XSDs, WSDL, Xquery Transformations, Proxy Service and Business Service as per requirement
- Developed integrations to Order Manager
- Developed interfaces with error handlers in Osb 11g.
- Developed XSLTs to perform transformation between different systems.
- I have created JMS,FTP ,AQ, DB Based services in OSB
- Prepared Technical Design Documents
- Performed Unit Testing and Integration Testing
- Providing SIT and UAT support
- Managing code versions using SVN.

**Description:** Shop Direct is the UK's largest pureplay retailers with one clear goal: to make good things easily accessible to more people. With over 1.4 million visits per

day, Shop Direct's digital department stores — including Littlewoods and Very — have become household names.

**Technology:** SOA 12c, SOA CS Used Protocol: Web(HTTP/HTTPS) , SOAP Services

❖ **Project Name:** Arcadia  
**Organization:** Tech Mahindra Pvt.Ltd  
**Role:** SOA/OSB Developer and support

**Roles performed:**

- Configured Data Sources, JMS queue Connection Pools by using weblogic admin console.
- I have worked on CRs and Enhancements.
- I have interacted with client for handling support and production issues.
- I have done OSB and SOA implementation for interfaces as per requirement in project
- Created SRs and Followed up with Oracle Support.
- Worked on Incidents and Problem Tickets.
- As a developer I have created APIs using XSDs, WSDL, Xquery Transformations, Proxy Service and Business Service as per requirement
- Developed integrations to Order Manager, WMS(warehouse management)
- Developed interfaces with error handlers in Osb 11g.
- Developed XQueries to perform transformation between different systems.
- I have created JMS,FTP ,AQ,MQ, DB Based services in OSB
- Prepared Technical Design Documents
- Performed Unit Testing and Integration Testing
- Providing SIT and UAT support
- Managing code versions using SVN.
